Office

What is Office 365 Education?

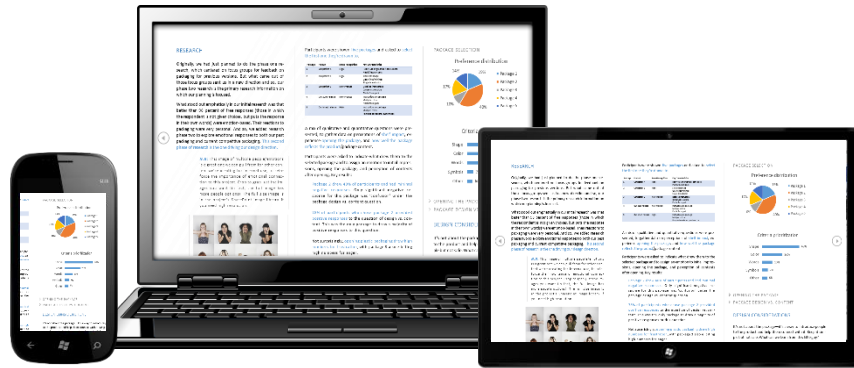

Office 365 helping to drive

The vision of Bring your own Devices becoming a reality students, are demanding the ability to be productive
Anytime, Anywhere

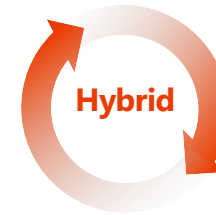

Helping to alleviate the boundaries between
collaboration and communication

Helping services, information, research and lectures can be accessed worldwide.
Everyone is connected
from students to lecturers

Microsoft's productivity vision

On Premises

Online

Best experience across devices

Cloud on your terms

Messaging

Voice
& Video

Content
Management

Enterprise
Social

Reporting
& Analytics

Integrated best-of-breed solutions

Business challenges for Education

Our mobile workers need access to more than just email, and without using a VPN.

Anywhere
Access

We still need to get our work done when we are travelling.

Teams need to be able to collaborate on the same documents.

Work
Together

We have to make sure everything works on everyone's mobile devices.

In some cases, we want more control over what tools some of our employees use.

Easy
IT

Managing complex infrastructure to get staff away from the important projects.

If we have a problem, we need somebody who is going to be responsive.

Best
Value

We are cost conscious nowadays more than ever.

Student Advantage
