turn IT on
Connecting schools and technology

Delivering sustainable IT...

In recognition of our **ISO14001** Environmental Accreditation we are pleased to be working with Circular Computing. Circular Computing are an environmentally conscious technology company that produce re-manufactured laptops that are carbon neutral. Circular Computing deliver premium, enterprise-grade products that are cost-effective and minimise harm to the planet, everything they do is designed to create a positive impact. By re-manufacturing laptops they are able to create a carbon neutral product and promote green IT. **Turn IT on** are delighted to be supporting sustainable IT with Circular Computing.

Refer a friend to turn IT on and receive a free carbon neutral laptop

To celebrate our **ISO14001** Environmental Accreditation we are offering you the opportunity to get a free carbon neutral laptop from Circular Computing. Simply introduce us to a local school that might be interested in reviewing their ICT support provision and when they sign up for any regular ICT technical support from **turn IT on** we'll provide you with a free Circular Computing laptop! No limit, refer multiple schools and receive multiple laptops.

How?

Recommending us is easy, simply email office@turniton.co.uk with the name and contact details of the school you are recommending us to and we'll do the rest...
