turn IT on
Connecting schools and technology

Little Ealing Primary School

Little Ealing Primary School, London

Little Ealing Primary School use **turn IT on** as their trusted partner for technical support and have been receiving these services for several years. After success with the planning and execution of the school's ICT, Little Ealing was pleased with the quality of the support they received. As a result, they decided to add MIS support and GDPR services to their **turn IT on** support. After several issues, Little Ealing felt they needed a more proactive approach from their previous support provider and decided to switch to **turn IT on** support as their solution.

turn IT on was able to help the school feel like they were finally getting the support and level of customer service that they deserved. Little Ealing and **turn IT on** have had a great relationship since day one. **turn IT on** helped Little Ealing to resolve issues quickly and help the school identify areas to improve to avoid the same issues repeating. The support consultant has been able to save the school money across their entire IT network by suggesting simple and appropriate software that suits the school and what they require. As well as technical support, Little Ealing Primary School also use **turn IT on** as their trusted support partner for MIS support and GDPR. **turn IT on** provide support for SIMS and they also offer a DPO service which means Little Ealing has ongoing support for SIMS and access to a designated GDPR expert with their own appointed Data Protection Officer.

A Reliable and Trusted Support Partner

Little Ealing trust **turn IT on** to proivde them with their technical support, MIS support and GDPR services!
