turn IT on
Connecting schools and technology

St Andrew's Primary School

St Andrew's Primary School, Headington

St Andrew's use **turn IT on** as their trusted partner for technical support and have been working together closely for several years to help plan and execute the vision for the school's ICT. **turn IT on** has been able to advise with the strategic planning of their ICT throughout the school and support them with the direction of their future ICT investment to ensure that they are getting the best value. **turn IT on** provide quality support and keep regular communication with the school to ensure that everyone's needs are being met. St Andrew's were able to transform the classroom with the use of Microsoft 365 and affordable devices. Several teachers were able to improve their IT abilities and learn new skills with the help of a variety of training from **turn IT on** spanning Teams, OneNote Class Notebook, Sway and more! Many pupils benefited from having their own device making the transition from learning in the classroom to at home and back again much easier. Year 5 and 6 were able to take ownership of their learning and use their device in a way that suited them and their learning. Knowing that **turn IT on** were just a phone call or email away gave teachers the confidence to try new things. Any problems that could be resolved quickly were soon taken care of and there is always someone on hand to discuss problems or concerns. St Andrew's have been able to make great steps during lockdown and will continue to embrace hybrid learning as we move forward.

A Reliable and Trusted Support Partner

Even in adverse circumstances **turn IT on** endeavour to continue to provide quality support.

"Our support partner, **turn IT on** have been a great help with getting our school up and running with new devices and distance learning. They are always there and have supported us throughout lockdown, **turn IT on** are a fantastic support."

Jane Bird, Business Manager, St Andrew's

ICT Support with turn IT on
