

# Mission Statement

## Our Mission

At **turn IT on** we have always taken a different approach to ICT support and our mission is **to transform the use of technology and data in schools to improve the outcomes for pupils and students**. Since 2003 we have worked exclusively with schools and we use our unrivalled experience to provide a comprehensive range of hands-on ICT services to more than 1000 schools, Local Authorities and Multi-Academy Trusts across the UK. Ensuring ICT is having the maximum benefit to learning is at the heart of everything **turn IT on** does. We don't just fix things when they go wrong we proactively help schools by providing a bespoke three year ICT School Development Plan. This plan is tailored to meet each school's specific strategic objectives and is regularly reviewed to ensure it responds to the necessary requirements.

## Our Culture

We promote a nurturing and happy environment where honesty and transparency are encouraged and all our staff feel valued, respected and listened to whilst doing meaningful work which has an impact on children's education.

## Our Values

We all work within the same values to provide an exceptional service to our customers. The values we all share are:

Care

Think Yes

Be Straightforward

Commit to Excellence

Deliver

One Team
